

# Indirect Hypnosis over IRC

[www.error265.co.nr](http://www.error265.co.nr) - Produced by Error265 (Vince Lynch)

I grant permission for modification of this file only to the extent that the passage of text still maintains its validity as a hypnotic process indirectly and through text as specified.

In addition: any statements about the human mind that seem to sound dangerous are not actually dangerous as they are merely about the possibilities of such processes occurring in theory – never in practice. [Error265].

## Indirect Hypnosis over Internet IRC with a random client who had never undergone any kind of therapy or hypnotic schooling or internal states

I'm not going to lie to you; this text conversation occurred 11<sup>th</sup> of January 2005 ; it is here to demonstrate to all the people who wish to understand indirect hypnosis how it is performed

Also for any people who doubt that hypnosis can be performed anywhere on anyone even a random person on the Internet who requests to be see something amazing [as in the example shown below].

Also it is often claimed that indirect hypnosis isn't very positive and not near as effective as direct hypnosis; as you shall see I elicit states very indirectly yet only go direct at key moments to make sure the hypnotee is aware of what is required of them; in a more social setting I may use hypnosis regardless of these events through the same systematic association patterns I have shown in the below conversation – so that without any communication that seems related to hypnosis or anything unusually a person is still brought into different states of awareness where they can experience things that are most unusual to the average person

Enjoy; For you the people

Error265

The conversation begins previous to the first recorded words but I left the chat application due to lack of enthusiasm... I then returned due to his statement on the first line; He is asking about how my friend 'jamie' produced a hypnotic effect where he made a girl unable to speak without her knowledge of anything out-of-the-ordinary taking place; he then asks me Vince Lynch[error265] what impromptu effects can I perform to which I reply 'Anything' from here onwards the conversation shall

make perfect sense with the hypnotee [james] requesting to see something unusual.

James says:

He said it was on your blog!

Error265 says:

lol

Error265 says:

what is?

James says:

Umthe mouth thingwhat other impromptu stuff does he know

James says:

or you know

Error265 says:

Anything

James says:

Anything?

Error265 says:

i think the only thing i couldnt do is

Error265 says:

errrr

Error265 says:

a complete personality re-write

Error265 says:

well

Error265 says:

I'm slightly exaggerating maybe

Error265 says:

impromptu

Error265 says:

hhmmm

Error265 says:

well

Error265 says:

I've never done an identity swap

James says:

yeah

Error265 says:

impromptu covertly

Error265 says:

i dont think so anyway

Error265 says:

i can see some barriers with that

Error265 says:

but then again

Error265 says:

I have a good idea about how to achieve

Error265 says:

multiple personalities through that

Error265 says:

or possession

Error265 says:

covertly

Error265 says:

so i suppose i could

Error265 says:

havent done it yet though

James says:

can you do text inductions? Or text tricks?

Error265 says:

yeah..... but i dont really enjoy them

James says:

ok

Error265 says:

i enjoy the covert belief stuff

James says:

whats that>

Error265 says:

Well i mean like belief change through text

Error265 says:

while dodging the consciousness really

Error265 says:

hitting suggestions, metaphors.. foot in the door

Error265 says:

lack of referential indices

Error265 says:

errr.. mainly for therapy i do that

Error265 says:

stuff like

Error265 says:

making bits of a persons life

Error265 says:

irrelevant

Error265 says:

or

Error265 says:  
making someone kinsthetically obsessed  
Error265 says:  
when before they had repression  
Error265 says:  
but that aint really impromptu; i mean  
Error265 says:  
I need to know what the probelm is  
Error265 says:  
and assess stuff like  
Error265 says:  
representational abilities  
Error265 says:  
and buzzwords  
Error265 says:  
language patterns  
James says:  
Ok  
Error265 says:  
patterns of thought  
James says:  
could you do a text thing with me that will amaze me,  
Error265 says:  
Go on then  
Error265 says:  
Can you type with only one hand?  
James says:  
yes  
James says:  
slowly  
Error265 says:  
Slowly is good  
Error265 says:  
Because  
Error265 says:  
If you can place That left hand  
Error265 says:  
onto your desk  
Error265 says:  
infront of the keyboard  
Error265 says:  
and look at it  
James says:  
ok  
Error265 says:  
thats great  
Error265 says:  
and i dont know if you want to press down into the table or just look at that hand  
Error265 says:  
and i dont know whether your going to know exactly what is going to happen  
Error265 says:  
whether you've seen this happen before  
Error265 says:  
but as you look at That hand  
Error265 says:  
i want you to understand  
Error265 says:  
how the mind makes associations  
Error265 says:  
and you can just absolutely believe something  
Error265 says:  
Like the sun is going to rise up tommorow  
Error265 says:  
or theres being a time where you've been that convinced of something  
Error265 says:  
that it seems completely true  
Error265 says:  
but everyone else doubts the validity  
Error265 says:  
because i know your imagination  
Error265 says:  
is incredibly powerful  
Error265 says:  
so powerful  
Error265 says:

it almost lives beyond you  
Error265 says:  
that you can look at that hand  
Error265 says:  
and think  
Error265 says:  
Is my hand going to stick  
Error265 says:  
is That hand really going to get completely stuck to the desk  
Error265 says:  
as if its molding completely into it right now  
Error265 says:  
Like Wood and superglue  
Error265 says:  
because i dont know if you've experienced really strong superglue  
Error265 says:  
completely locking that hand to the table  
Error265 says:  
or another part of your body  
Error265 says:  
and i dont want you to attempt to try  
Error265 says:  
to move it  
Error265 says:  
until your unsure whether you know when to try  
Error265 says:  
even if its worked even faster than you imagined  
Error265 says:  
because that hand  
Error265 says:  
can be controlled by your unconscious  
Error265 says:  
and i wouldnt know  
Error265 says:  
when that hand will give you back conscious control  
Error265 says:  
But i want you to try consciously to lift that hand  
Error265 says:  
in a moment  
Error265 says:  
because i wonder if you know how stuck that hand really is?  
Error265 says:  
before you attempt to try to move that hand?  
Error265 says:  
.....  
Error265 says:  
. .  
Error265 says:  
Try to lift THAT HAND  
Error265 says:  
That left hand  
Error265 says:  
Whats it like?  
James says:  
it feels heavy  
James says:  
omg  
James says:  
its tinglingwierd  
Error265 says:  
too heavy to lift, as if its becoming more heavy?  
Error265 says:  
which one  
James says:  
to heavy to lift  
Error265 says:  
How stuck out of 10 is it into the table?  
James says:  
10  
Error265 says:  
Absolutely  
James says:  
i cant lift it  
James says:  
yes

Error265 says:  
Because your unconscious owns your hand  
James says:  
im trying  
Error265 says:  
Thats my hand  
Error265 says:  
custosy of you unconscious  
Error265 says:  
Because how ever long that is stuck for  
Error265 says:  
and i dont know if it will be  
Error265 says:  
until i ask later on for it to be released  
Error265 says:  
or if i say to you  
Error265 says:  
That you know how you can just think of something which you know that you Should know  
Error265 says:  
like a persons name, like an actress that you've completely forget, your name or  
something  
Error265 says:  
and its completely crazy  
Error265 says:  
because  
Error265 says:  
when in a moment  
Error265 says:  
i say  
Error265 says:  
'yellow'  
Error265 says:  
only at the rate and speed  
Error265 says:  
you completely forget that vital piece of information  
Error265 says:  
that was your name  
Error265 says:  
you'll be able to lift your hand  
Error265 says:  
YELLOW  
Error265 says:  
AND THE HAND LIFTS  
Error265 says:  
WHAT WAS YOUR NAME?  
James says:  
um  
Error265 says:  
.....And you cant work it out  
Error265 says:  
try  
Error265 says:  
and you cannot  
James says:  
i cant  
James says:  
I can see it  
Error265 says:  
its just how you just completely forget something  
Error265 says:  
and it seems silly  
James says:  
but not say it  
James says:  
yeah  
Error265 says:  
and whatever way you try  
Error265 says:  
it still doesnt make any kind of sense  
Error265 says:  
Like a complete mental block  
James says:  
yes  
Error265 says:  
Because i dont know if you've forgot your entire full name now?

Error265 says:  
or even the names that your parents had  
Error265 says:  
But if your forgetting things at such a fast rate  
Error265 says:  
i wouldnt want you to completely forget  
Error265 says:  
the number of your house on some street in some place that you aint really sure  
Error265 says:  
who you are  
Error265 says:  
Hello?  
James says:  
hi  
Error265 says:  
How do you feel?  
James says:  
Wierd, like I cant thinkwho I am  
James says:  
um  
Error265 says:  
Where in the world is yours?  
James says:  
I dont know  
Error265 says:  
Okay  
Error265 says:  
What if i told you something  
Error265 says:  
that is going to seem strikingly familiar  
Error265 says:  
like how you can just grasp something  
Error265 says:  
to be true instantly  
James says:  
ok  
Error265 says:  
How does it sound fred, for me to say  
Error265 says:  
your Fred from canada  
Error265 says:  
Sounds familiar huh?  
James says:  
Yes  
Error265 says:  
Yeah.. and your second name is tomson is that right?  
Error265 says:  
have i spelt it right?  
James says:  
yes  
Error265 says:  
Whats canada like at this time of year?  
James says:  
I dont know  
James says:  
James says:  
oops  
Error265 says:  
Well its rain season  
Error265 says:  
have you seen lots of rain  
James says:  
yes  
Error265 says:  
i've seen it on the news up there  
Error265 says:  
god  
Error265 says:  
Are the floods anywhere near you?  
James says:  
yesI have moved up to the attic  
Error265 says:  
its raining now isnt it, all across canada.. you close to a window, i love the sound  
of rain  
Error265 says:

Chuckling it down with rain?  
Error265 says:  
whats it like?  
Error265 says:  
Any lightning and thunder?  
James says:  
It's loud  
Error265 says:  
Thats crazy  
James says:  
Yeah, im used to it though  
Error265 says:  
Yeah i beyt  
Error265 says:  
Hey what-time is your canada freind girl thingy coming over, she should be there in a minute?  
Error265 says:  
god travelling in that rain  
Error265 says:  
You going out with her?  
Error265 says:  
Whats her name?  
James says:  
Yesshe is coming soon  
James says:  
Sarah  
James says:  
Im scared she has to come in the rain  
Error265 says:  
Yeah... thats fantastic dude  
Error265 says:  
Yeah; Well i hope she gets here  
James says:  
ok  
Error265 says:  
the moment things brighten up  
James says:  
So do I  
Error265 says:  
because you know how when someone says something and instantly a thing or a concept or a person instantly becomes apparent to you on that word...  
James says:  
yes  
Error265 says:  
Like i dont know if sarah will suddenly be there at that moment when things brighten up; but i'm sure things will become apparent  
Error265 says:  
because the brightest color is 'YELLOW"  
Error265 says:  
dude your status has just changed to busyt  
James says:  
oh  
Error265 says:  
shes there now isnt she?  
James says:  
yes  
James says:  
Error265 says:  
god; touching you  
Error265 says:  
?  
James says:  
oops  
James says:  
hmmm  
Error265 says:  
where is she  
Error265 says:  
whats she doing?  
James says:  
sitting on my bed,  
Error265 says:  
Lol  
Error265 says:  
I bet she wants something

Error265 says:  
am i disturbing you two?  
James says:  
Yes  
Error265 says:  
LOL  
Error265 says:  
GO GET HER TIGER  
James says:  
I will  
Error265 says:  
If shes wearing nice clothes  
Error265 says:  
take em off her anyway  
Error265 says:  
i bet shes wet the poor thing  
Error265 says:  
Not just from the rain  
Error265 says:  
Lol  
Error265 says:  
!!!  
Error265 says:  
enjoy the canadian girls dude  
James says:  
Yeah, Im going to get her a towel, hehe  
Error265 says:  
bye  
James says:  
Yes  
James says:  
ok  
James says:  
she had to go  
Error265 says:  
oh why?  
James says:  
dont know  
Error265 says:  
She put her clothes back on?  
James says:  
Yes! know I should have got her other ones but she had to leave  
Error265 says:  
lol  
Error265 says:  
Well you know how to remember things  
Error265 says:  
even after strange experiences  
Error265 says:  
because i want you to suddenly look around  
Error265 says:  
and see how things really are  
Error265 says:  
as you WAKE UP!  
Error265 says:  
NOW  
Error265 says:  
Thats right  
Error265 says:  
remembering all your experiences  
Error265 says:  
knowing your real name  
James says:  
What? James  
James says:  
Error265 says:  
and where you really are  
James says:  
Omg  
Error265 says:  
yes i know  
Error265 says:  
Thats reality son  
Error265 says:  
lol

James says:  
wierd, I actually believed I wasomg I cant even remember his name  
Error265 says:  
oh  
Error265 says:  
you remember taking off a girl called sarahs clothes though  
James says:  
hehe yeah  
Error265 says:  
and the thunderstorm?  
James says:  
yes..it was loud  
Error265 says:  
lol  
Error265 says:  
in canada  
Error265 says:  
lol  
Error265 says:  
Fred  
James says:  
yeah, what the  
James says:  
Error265 says:  
yeah thats what i call an enviroment change  
Error265 says:  
Most of it relies on the fact that you didnt have a stable reality  
Error265 says:  
so as you search for answers  
Error265 says:  
i suggest things  
Error265 says:  
and you replace things  
Error265 says:  
until you have a new reality  
Error265 says:  
plus by you following suggestions  
James says:  
Wowthat is very good  
Error265 says:  
you get in a pattern  
Error265 says:  
of repeating the behavior  
Error265 says:  
yeah  
Error265 says:  
treasure that girl  
Error265 says:  
lol  
James says:  
I will  
James says:  
Thanks for that, it was fun  
Error265 says:  
np  
James says:  
Is it hard to learn that?  
Error265 says:  
nah  
Error265 says:  
not really  
James says:  
What is the funnest thing you like to do to people without them knowing?  
Error265 says:  
i cheated really it wasnt impromptu as such  
Error265 says:  
Dunno; enviroment changes are always good  
Error265 says:  
But; i loved the day  
Error265 says:  
me and this other hypnotist  
Error265 says:  
went and hypnotised this valetines day saleswoman  
Error265 says:  
her business was purely for that

Error265 says:  
We made her forget loads of things  
Error265 says:  
her name, when valetines day was  
Error265 says:  
she didnt know what was going on  
Error265 says:  
just felt lost  
James says:  
Error265 says:  
It wasnt impromptu because we took the hand stick first  
Error265 says:  
Hand stick was a leverage  
Error265 says:  
into name amnesia  
Error265 says:  
which distorted your sense of self  
Error265 says:  
So location amnesia suddenly seemed workable  
Error265 says:  
Then it suddenly seems reasonable  
Error265 says:  
to accept the whether is different  
Error265 says:  
in different countries  
Error265 says:  
So its logical for you to hallucinate a whether  
Error265 says:  
So then hallucinating a girl suddenly seems reasonable  
Error265 says:  
Are you really in an attic bedroom  
Error265 says:  
Or did you invent that part?  
James says:  
I invented it  
Error265 says:  
Lol  
Error265 says:  
Did your room look different?  
James says:  
Yeahjust a blur, Well the girls wasnt  
Error265 says:  
lol  
James says:  
If I learn the hand thing and how to use suggestions I will be able to, in theory, do stuff like you did  
Error265 says:  
Yep  
Error265 says:  
certainly  
James says:  
Cool, could you teach me?  
Error265 says:  
Derrens radio 1 performance shows how you lead  
Error265 says:  
from hand stick to name amnesia  
Error265 says:  
Infact just by making it seem  
Error265 says:  
as if when the hand is free  
Error265 says:  
the name is disappear  
Error265 says:  
will probably make it happen  
James says:  
ok  
Error265 says:  
you got the radio 1 thing?  
Error265 says:  
Also i prepped you before we started that  
James says:  
yes  
Error265 says:  
I said  
Error265 says:  
Well i talked about 'belief'

Error265 says:  
and really believing things  
James says:  
yes  
Error265 says:  
despite how reality actually is  
Error265 says:  
...  
Error265 says:  
Basically i'm setting you up for the impossible  
Error265 says:  
If you know how to believe anything  
Error265 says:  
Which will occur  
Error265 says:  
if i talk about it  
Error265 says:  
It will occur because people  
Error265 says:  
access states  
Error265 says:  
automatically  
Error265 says:  
upon the state being described  
Error265 says:  
"DONT THINK OF A BLACK CAT"  
Error265 says:  
you have to think of a black cat  
Error265 says:  
So if you describe  
Error265 says:  
believing something without reason  
James says:  
Yeah, derren brown  
Error265 says:  
Then you will also access that part of your brain  
Error265 says:  
and therefore with that part 'active'  
Error265 says:  
you are therefore applicable to its logic  
Error265 says:  
Aswell as the standard things like  
Error265 says:  
what "WAS" your name  
Error265 says:  
saying 'was' implies the name is already lost  
Error265 says:  
I also used  
Error265 says:  
'Try' to work out your name  
James says:  
hehe  
Error265 says:  
'try' means its hard  
Error265 says:  
anything that someone tries  
Error265 says:  
they usually fail  
Error265 says:  
i even said  
Error265 says:  
'attempt to try'  
Error265 says:  
Lol  
Error265 says:  
dont stand a chance  
James says:  
Error265 says:  
Because people automatically access that part of their brains  
Error265 says:  
DONT THINK OF A BLACK CAT  
Error265 says:  
DONT ATTEMPT TO TRY  
Error265 says:  
same thing

Error265 says:  
the person naturally attempts to try  
Error265 says:  
aka 'they fail'  
Error265 says:  
at doing the task  
James says:  
ye  
Error265 says:  
Also  
Error265 says:  
using witchdoctor  
Error265 says:  
I built up to a single moment  
Error265 says:  
when something almost  
Error265 says:  
'magical'  
Error265 says:  
was going to happen  
Error265 says:  
means  
Error265 says:  
that part of the listeners brain  
Error265 says:  
believes it actually will  
Error265 says:  
Without choice  
Error265 says:  
they have to invest  
Error265 says:  
at least some belief  
Error265 says:  
and some belief is enough  
Error265 says:  
for the unconscious  
Error265 says:  
to take control of the hand  
Error265 says:  
Notice also  
Error265 says:  
I called your hand  
Error265 says:  
"THAT" hand  
Error265 says:  
because it implies it isnt your own  
Error265 says:  
it implies its disconnected  
Error265 says:  
your brain also processes that  
Error265 says:  
the same way  
Error265 says:  
it processes "DONT THINK OF A BLACK CAT"  
Error265 says:  
You can stick anyones hand to the table  
Error265 says:  
even if it doesnt work instantly  
Error265 says:  
its only because the listener  
Error265 says:  
didnt access 'that' state  
Error265 says:  
If they truely understand  
Error265 says:  
how a hand can be outside their conscious control  
Error265 says:  
Then their mind will access it  
Error265 says:  
and will do it  
Error265 says:  
Just like "DONT THINK OF A BLACK CAT"  
Error265 says:  
there isnt any choice whatsoever  
Error265 says:

They will access it  
Error265 says:  
they will access how to do 'x'  
Error265 says:  
All that you have to do  
Error265 says:  
Is make sure  
Error265 says:  
they truely understand  
Error265 says:  
what 'x' is like  
Error265 says:  
through the powers of describtion  
James says:  
its good  
Error265 says:  
you can only win  
James says:  
cool  
James says:  
I will try and tell you if It works  
Error265 says:  
lol  
Error265 says:  
Will you be unable to tell me?  
James says:  
Lol
